Unity

# Malcolm Fenech

## Front-end Developer

Completed a Bachelor of Science (Honours) in Multimedia Software Development at MCAST this year, with recent experience as an Apprentice Full Stack Developer at IIGU. Practical experience in full-stack development and UI/UX design, and proficient in modern web technologies such as HTML, CSS, JavaScript, React.js, Next.js, and Tailwind. Strong foundation in teamwork and problem-solving skills, developed through technical projects and prior hospitality work. As I enter the field of professional development, I'm passionate about developing intuitive user interfaces and looking for chances to contribute to creative development projects.

## Work History
